Dear Andy,

Thank you for your letter regarding Burlington Telecom. Bill Keogh and I have spoken about your offer of assistance. We could not agree more that BT is a valuable asset that needs to be preserved and strengthened. As you know the City is currently reviewing organizational and financing options for the future of BT, and specifically is in discussions with CitiLeasing.

We appreciate your group's interest in these issues and will be back in touch if we need additional information.

With best regards,

Bob Kiss, Mayor
